

We are pleased to announce that our professional soccer club will open in the **Summer of 2016!**

Why tryout for the Pearl City Soccer Club?

1. We offer professional coaching from licensed staff that has experience and knowledge of the game
2. Our staff has experience playing at the collegiate and semiprofessional level
3. We have a player first philosophy; we believe that developing players technically (skills) takes precedence over winning at the younger ages to build complete players to then excel at the older ages groups when winning is definitely the objective.
